RARE AND CHOICE TREES AND SHRUBS
(Quantities very limited - Please order early)

This stock is mostly an ideal size for lining out or canning. Hardiness zones are listed in Roman numerals after the name. Minimum order \$5.00 and 5 plants of a kind.

		Each
ACER BUERGERIANUM (VI)	18-24"	\$1.50
The Trident Maple makes a small, shapely tree and has distinctive, shiny, three lobed leaves which turn bright orange and red in fall.		
COTONEASTER ADPRESSA PRAECOX (IV)	6-8"	.60
Mounded and low growing with extra large, brilliant red berries; good ground cover.		
CORYLOPSIS PAUCIFLORA (VI)	2" pots	.60
Dainty but showy Winter Hazel; very scarce. Soft yellow blooms in early spring. This is a select form imported from Japan early in 1941. Our specimen now measures 5' high and 7' across.		
HALESIA MONTICOLA (V)	12-18"	.80
The best of the American Silverbell Trees. Thousands of hanging white or pinkish bells in late spring.		
KALMIOPSIS LEACHIANA N. Umpqua River Form (VI)	strong liners	1.00
	budded, 6-8" spread	2.50
This very rare evergreen is native only in southern Oregon and our form is the newly discovered, easier to grow type from the Cascade Mts. It is low, spreading and looks somewhat like a very dwarf Azalea with rose to cerise blooms.		
LEUCOTHOE POPULIFOLIA (V)	12-18"	1.50
Evergreen species with upright, arching stems to 10' when mature; attractive bronzy, young foliage which turns green; clusters of white bells in summer.		
STYRAX JAPONICA (V)	18-24"	.90
	blooming size, 6-8"	4.00
Very graceful small tree (to 30') with dainty leaves and almost horizontal branches from which hang thousands of showy white bells in spring. Hardy, easy to grow and an ideal landscape subject for modern low homes with small yards.		
OBASSIA (V)	18-24"	1.00
As bold as the above is dainty! Large leaves and hanging clusters of fragrant white bells; fascinating zig-zag branching; to 30'.		
VIBURNUM BODNANTENSE (VI)	2 1/2" rose pots	.60
	12-18"	1.20
A fine new hybrid from England with rich, rosy pink, fragrant blooms in winter or very early spring, depending on the weather.		
GRANDIFLORUM (VII)	8-12"	.80
Another winter blooming type with a more open habit of growth and lighter pink flowers.		
ZENOBIOPSIS PULVERULENTA (V)	12-18"	2.50
One of our favorite shrubs because it has such masses of huge white blooms (like a magnified Pieris japonica) in summer. The evergreen to semi-evergreen leaves are a handsome bluish green on top and silvery white below; to 6'. Very choice and rare!
